

JUNIOR LEAK DETECTIVE: HOME LEAK INVESTIGATION KIT

MYSTERY CASE FILE:

Are there water leaks in your home?
Undetected leaks can waste thousands of gallons of water every month.

SPECIAL ASSIGNMENT

YOUR MISSION:

- 1 Help your family use water wisely by checking your toilet for leaks
- 2 Investigate whether there are leaks elsewhere in your home
- 3 Report your findings to Leak Detection headquarters!

JUNIOR LEAK DETECTIVE: HOME LEAK INVESTIGATION KIT

STEP 1:

Use this dye to check your home's toilets for leaks. You may need a grown-up to help you with this part! Here's how:

1 Remove the toilet tank lid.

2 Drop the attached dye into the tank. (10 drops of food coloring also works). Then put the lid back on the tank. Do not flush!

3 Wait 20 minutes.

4 Check your toilet bowl. If you see colored water, you have a leak. If not, you don't.

Non-toxic: Harmless if swallowed.
KEEP OUT OF REACH OF CHILDREN.

TOILET DYE

OPEN BAG, DROP DYE INTO TOILET TANK. WAIT 20 MINUTES. IF DYE APPEARS IN TOILET BOWL - YOUR TOILET IS LEAKING. FLUSH TOILET TO REMOVE DYE.

NORLAB INC.
P.O. BOX 380
AMHERST, OH 44001

FAX 440-282-5498

STEP 2:

Fixing leaks should be left to grown-ups, but you can help by using your detective skills to find leaks around your home.

Put an **X** in the water drop any place that drips when your water is off.

Share what you have found with a grown-up. Then proceed to Step 3!

JUNIOR LEAK DETECTIVE: HOME LEAK INVESTIGATION REPORT

STEP 3:

Report your leak detection findings to Headquarters. They'll give you details on your next water-saving mission!
